

VANNESHA HALL

The William O. Lockridge Community Foundation has made it possible for me to attend college. The vision of the Foundation is to afford students in disadvantage wards in Washington, DC the possibility of going to college and allowing dreams to come true. I am so lucky to have the Lockridge Foundation affording me the chance to get a degree from Tennessee State University.

While attending college, I plan to study Fashion Merchandising and a minor in business marketing. I will use my leadership skills by volunteering my skills in my community when I return to from school on breaks. I feel since the Foundation is giving back to me I need to give back as well.
