

"I am so honored and humbled to be a recipient of the William O. Lockridge Community Foundation scholarship as it represents the dedication and consistent hard work I've put in to be where I am today. Gaining this scholarship is more than receiving money; I am gaining a chance to further my education and become something better not just for myself, but for my community. This scholarship illustrates that I have a support system and people around me who believe in me and recognize my potential to leave my mark in our future society. This scholarship is a push factor; something to remind me that giving up is not an option. With this scholarship, I will be attending Spelman College where I will major in political science with a minor in history. This scholarship is not just money, this scholarship is a chance to be another successful Black woman."
