

STEAM is very important to me, for this reason I plan to attend North Carolina A&T to study Architecture Engineering. Receiving the STEAM scholarship allows me to continue my path of exploring creative ways of problem solving. As a young African American woman, I believe it is very important to think outside the box and continue to break barriers. This scholarship will allow me to do just that.

The Williams O. Lockridge Community Foundation scholarship will not only assist me academically but financially. It will relieve a great deal of the financial hardship. I am honored to receive this scholarship and excited to what will come in the future.
