

Hi, my name is Keyshon Johnson. In the fall of 2024, as I continue my academic journey, I plan to study computer science as well as continuing to maintain straight A's. Throughout my high school days and for as long as I remember, I have always held myself to a higher academic standard. I have always been a person who goes above and beyond when it comes to anything with my academics. That is one of the many things that describes who I am, as well as my goals. I have a strong will and desire to achieve my goals by doing the things that are most necessary. The Spread Your Wings Scholarship means a tremendous amount to me because it will assist me with achieving a higher level of academic excellence.

Thank you.

Keyshon Johnson
