

Receiving the "Spread Your Wings" Scholarship means that I have been given an opportunity to not only enhance my future, but the future of others. I have been given a chance to move forward careerwise and reach my fullest potential. As a black person from DC, there are many negative assumptions and stereotypes made about us. Being given this scholarship means that I have been given the chance to go out into the world and demonstrate the excellence that we are able to possess. The assistance with my financial aid allows me to not have to worry so much about making up the difference of the cost.

Thank you so much!

Zora Brown-Andrews
