

Receiving the Spread Your Wings Scholarship would mean a lot to me. It would mean so much to receive a scholarship like this because it would make a big impact on the start of my college journey.

I will be the first in my family to attend college so this would benefit me a lot. It will also be a goal that I will accomplish. I've dreamed of going to college, graduating with a master's degree in architecture and become an architect. These are my goals that I've planned since I started high school, so with this scholarship accomplishment it would mean so much to me. And it would be an honor of receive the Spread Your Wings Scholarship.
