

Receiving the "Spread Your Wings" scholarship means the world to me. The scholarship would help me pursue my goal of going to my dream college since I'm from Washington, D.C., and traveling to Ireland for education would be a great opportunity for me to connect with other people and to talk to them about my experience. It will also allow me to learn more about different cultures.

Queens University Belfast has a large community of students from all over the world. Going to Queens would be a chance to learn about other people's cultures and to share my culture with them. As someone who wants to be an actor or a writer, I want to share my experience. I have anxiety and depression so I would like to share my experience through my acting and my writing
