

My name is Kenneth Crawford, and I am honored to be able to receive this Lockridge Scholarship. I want to thank God, my family, staff, and friends for the long hard 4 years of high school and now I finally made it to the end of high school.

This is the beginning of my new life of being an adult and if it was not for God, I would not be here today to even receive this scholarship. Ninth grade was a struggle, but I stayed humble, paid attention, and always stayed on my work. Tenth grade year was the best year ever, I had fun while doing my work instead of struggling and not knowing what to do. Ever since then, I have been on point about my work. I have been on honor roll from 9th-12th grade with a cumulative GPA of 3.3, while receiving an MVP award in basketball during 10th and 12th grade.

I want to thank Mr. Lockridge for helping me receive this scholarship. If it was not for him, I would have never known about the scholarship. Also, I want to thank his family for having the scholarship foundation for students so they can attend college and have enough money to attend a college and be successful. Thank you all.

See you all soon.
